

This program is a game that I created using Java Turtle. I made this game as it can relieve some stress, the game's goal is to kill any aliens with their ship and get a high score. The controls are only "A", "D", and "Space Bar" the button "A" is to move the user to the left and the button "D" is to move to the right and lastly the "Space Bar" button is to shoot.

```
Main Menu:
1. View High Scores
2. Delete Score
3. Cancel
Enter your choice: 1
High Scores:
Almar 0
```

```
Main Menu:
1. View High Scores
2. Delete Score
3. Cancel
Enter your choice: 2
Enter the name of the player whose score you want to delete: Almar
Score for Almar has been deleted.
```

```
Main Menu:
1. View High Scores
2. Delete Score
3. Cancel
Enter your choice: 3
Thanks for playing Space Raah
```
